To block calls from your last caller, dial *60, press # and wait for the tone, dial 01 followed by #

?? **Repeat dialing**

Have your telephone automatically redial no answer or busy numbers and notify you when the line is available to complete the call

To turn on, after you have received a busy signal, hang up the phone and immediately pick it back up

At the dial tone, press *66

If the line is busy, hang up. Your phone will ring when the line is free

To turn off, dial *86

?? **Call return blocking**

Dial *60 to activate call block

?? **Repeat dial blocking**

Dialing *56 will deactivate repeat dialing

?? **Speed calling**

Speed calling makes dialing faster by allowing you to assign a two-digit code to complete telephone numbers

To record numbers on your speed calling list

Listen for a dial tone

Dial 75 # with touch-tone service telephone (75 with rotary or dial pulse telephones)

Listen for a second dial tone

Dial the Speed Calling 30 code (Number 20 through 49) beside the name you wish to record. For example, if you have assigned the code number 20 to your local police, dial 20.

Dial the phone number you want to record including, for a long distance number, 1 or 0 plus the area code.

Listen for three short tones. This will confirm that you have successfully recorded the number.

To speed call

Dial the two-digit Speed Calling code. With touch-tone dialing, also depress the # symbol immediately after you dial the Speed Calling code.
